

Uson Marine Quality Policy

Uson Marine shall be perceived by customers as one of the world leaders in providing waste handling solutions for maritime industry.

Through increased waste recycling we assist our customers and their clients to reduce the environmental impact of their operations.

We assist each stage of the process from design to installation, surveys, commissioning and training of the crew.

We use our wide knowledge and experience to assist our clients in complying with current and future regulations, whilst at the same time improving their environmental image and reducing their cost for handling of generated waste.

We ensure this by continuously improving our processes and management system.
